# HEADDEMCK SUPERB

## ASSEMBLY INSTRUCTIONS

1. Remove the small grey caps at both ends of each corner piece.

2. Make sure the holes in the middle pole of the stand are pointed downwards so they will 'click' in the corner pieces nicely.

3. Connect the corner pieces to the middle pole. Be sure to use the correct end of the corner piece (the balance pole needs to be positioned before the corner).

4. Finally, connect the remaining poles to the corner pieces. Your frame is ready and should look like this:

5. Now that your frame is ready, you can attach the headdemck straps to the hooks on both sides.

6. You can easily adjust the distance between the headdemck and the ground by tightening or loosening the straps.

That's it!

## YOUR HEADDEMCK SUPERB IS READY!

## WARNING

Do not allow children to use the Fatboy® headdemock without direct adult supervision. Never place a baby in the Fatboy® headdemock.

Don not exceed maximum weight capacity for your Fatboy® headdemock.
